

**make your own..**

save a ton of money...

everything shown can have additional purposes...

Get one of these....

105" wide body PRO-Grip for 120\$...

add on of these....

PRO-Grip Saw Guide Plate for 30\$...

to get this...

(using your own CS or router)

**Note:**

Better CS's have DC adapters/accessories available for them....

Or make your own Saw Guide Plate from UHMW - 1\$ for a cutting board from the Dollar Store... You also automatically get ZC in the bargain...

The better plate and guide are from [\*\*Peachtree...\*\*](#)
